

HOW WE WORK

Mentorship Programmes and Technical Assistance:

Offered by our core team for advocates, National Focal Points, and Flourishers Groups related to gender equality and gender-transformative programming in HIV, TB, and malaria processes within the Global Fund and the global health space.

Advocating to Influence: We produce reports, key technical documents, position notes, policy briefs, and statements to support and advocate for gender equality in all Global Fund processes and the international health governance environment.

Communications that Mobilise Change: We shape and implement communications campaigns for key stakeholders and women and girls, advocating for their meaningful participation and visualising their expertise, challenges, and health priorities.

Movement Building: We connect women and girls worldwide to create a change-driven community of feminist advocates, sharing knowledge, best practices, and lessons learned. We conduct learning and advocacy webinars, events, and meetings.

Programme implementation: We design and implement projects aligned with our mission. Learn more about our Accountability Toolkit, Gender Assessments, and Community-Led Monitoring Academy.

Educational Tools: We develop practical guides for women and girls to strengthen their understanding and navigation of Global Fund processes.

WE ARE

A MOVEMENT OF WOMEN AND GIRLS IN ALL OF OUR DIVERSITY

Working to confront gender inequalities in the world and influence the Global Fund to Fight AIDS, Tuberculosis, and Malaria towards gender-transformative health responses. We envision living in a world where all women have equal access to **HIV, TB, and malaria** services and the treatment they need, and where **all women enjoy their human rights.**

OUR ACTIONS

are guided by evidence-based advocacy and grassroots experience

Showing the multiple layers of gender inequalities and their harmful impact on accessing HIV, TB, and malaria services for women and girls.

DIVERSITY IS OUR STRENGTH

We welcome all women living with HIV or affected by TB and malaria, including **heterosexual, lesbian, bisexual, transgender, intersex, and non-binary women; women who use drugs; sex workers; adolescents and young women; Indigenous women; displaced, migrant, and refugee women; women in secluded settings and incarcerated women; and women with disabilities.**

OUR MISSION

To catalyse the power of women in all their diversity to advance gender equality through the Global Fund, W4GF is designed to empower women to participate in decision-making at global and national levels, to ensure diverse voices influence how funds are invested to achieve the greatest impact in communities, and to hold the Global Fund accountable for the impact of spending that will advance gender equality.

OUR JOURNEY

W4GF was established in 2013 during a pioneering workshop aimed at amplifying the voices of women and girls in all their diversity in the Global Fund's Country Coordinating Mechanisms after the launch of the Global Fund's funding model. **Initially bringing together 35 dedicated women, W4GF has grown into a dynamic network of over.**

327 ADVOCATES SPANNING 75 COUNTRIES

OUR MOVEMENT

Is guided by the Steering Group and structured with a global core team, our National Focal Points in 10 countries, our key collaborators, and advocates around four regional learning hubs: **Francophone Africa, Anglophone Africa, Latin America and the Caribbean, and the Middle East and North Africa. These hubs serve as vital support and collaboration centres, driving our mission forward.**

KEY MILESTONES

- In 2023, we held a multicountry mentorship programme around gender-transformative advocacy in GC7 in Tanzania, Cameroon, Ghana, India, and Morocco.
- We supported community-led monitoring initiatives on Global Fund programmes in Tanzania, Cameroon, and India, implementing our Accountability Toolkit.
- We advocated for gender equality in Global Fund processes and in key global health decision-making spaces, being present at the Women Deliver Conference 2023, the United Nations High-Level Meeting on TB, the World Health Assembly, and other relevant conferences like ICASA and the World Health Summit.
- We launched our #FUNDHERHEALTH advocacy campaign to highlight the need for sustained investment to achieve gender equality and eliminate all forms of gender-based violence.
- We created and sustained digital knowledge-sharing spaces, connecting advocates through four regional hubs.
- We have developed tools for gender-transformative engagement, including the Digital Dossier, CLM scorecards, Gender-Transformation in GC7 Guide, and the GC7 Pathfinder "Empowering Women's Knowledge of GC7 Allocation Cycle 2023-2025"
